Additional Information:

Garth brought up to the council about an employee wanting to take a paramedic bridge class. The class is \$3,000. The council was concerned about a contract being in place to protect them from any loss of money due to the employee being unable to complete the class or quit. The council was in favor of the class awaiting the decision of the commissioners.

Also, the transfer truck does not have a working radio. It needs to be programmed. Garth is in the process of getting quotes on having this done.

Don Hesler has been in contact with the state to sign off on bridge 97 to avoid having to pay the \$157,000 to get out of the contract.
